About

- Full Stack Developer with over 2 years of experience in building robust web applications and driving the development of scalable, high-quality solutions.
- Expertise in implementing seamless frontend-backend integration and optimizing performance to meet dynamic business needs.

Skills

- **Languages:** JavaScript, TypeScript, SQL, Python, Bash
- **Backend Development:** Node.js, REST APIs, Express.js, Sequelize ORM, MySQL, MongoDB, Mongoose, CRUD Operations, Authentication & Authorization
- **Frontend Development:** HTML5, CSS3, Angular, ReactJS, SASS, DOM Manipulation, Responsive UI Design
- **Frameworks & Libraries:** Angular, React.js, Express.js, Bootstrap
- **DevOps & Tools:** Git version control, VSCode, Postman, Chrome DevTools, GitHub, Figma

Work Experience

CitiusTech, Navi Mumbai

Jul 2022 - present

Software Engineer

- Developed and maintained **5+** large-scale web applications using MEAN/MERN Stack, improving application performance by **30%**.
- Created **15+ RESTful APIs** to streamline frontend-backend integration, reducing development time by **25%**.
- Spearheaded the migration of frontend systems to responsive frameworks (HTML5, CSS3, Angular, React), increasing user engagement by **40%**.
- Skills: MongoDB, Express.js, Angular, React, Node.js, TypeScript, Sequelize ORM, Git, MySQL.

Education

Vidyalankar Institute of Technology, Mumbai University

Aug 2018 - Jun 2022

Bachelor of Engineering in IT

CGPA: 9.36/10

Relevant Coursework: Object Oriented Programming, Databases, Discrete Maths, Data Structures and Algorithms, Operating Systems, Computer Networks, Machine Learning, Advance Data Structures and Algorithms, Linux

Projects

PHC Crowd Sourcing Platform

Jan 2023 – Aug 2023

Genentech client

- Developed a **crowdsourcing platform** that gathered health data of **5000+ oncology patients**, enabling advanced research and diagnosis.
- Led the design of **responsive user interfaces** for mobile, tablet, and desktop, improving accessibility by **40%** across platforms.
- Collaborated with backend developers to integrate **10+ APIs** that streamlined data collection and reporting.
- Skills: Angular 14, Node.js, MySQL, HTML, CSS, TypeScript.

XPath Auto Update Utility

Dec 2023 – Mar 2024

Davita client

- Developed a utility that reduced XPath update failures by **30%**, improving the stability of automation scripts during UI changes.
- Successfully tested the tool on **2 live websites**, providing real-time notifications for XPath changes before test execution.
- Skills: JavaScript, Node.js, DOM manipulation.

Certifications

- Web Developer Master Course
- SQL Mastery Course

Jul 2022 – Jan 2023

Feb 2023 – May 2023

Achievements

- **Coding Competition** : CodeKaze by Coding Ninjas
- **Web Development** : Ideathon by ITSA

April 2021

Nov 2020
